Adobe 0124-WP-ADPA-03 Parchment

Embrace the enduring beauty of traditional architecture with the "Adobe" wallpaper. Inspired by the age-old adobe structures of West Africa, this design captures the essence of raw, earth-built elegance. Utilising matte 3-D ink technology, the wallpaper texture evokes the tactile feel of sun-baked clay walls on a seamless non-woven paper. Choose from a palette of four organic shades: the subtle neutral of "Mushroom", the rich and earthy "Terracotta", the gentle and aged "Parchment", and the intense depths of "Obsidian". Adobe invites warmth and heritage into contemporary interiors, merging the ancient with the avant-garde.
