Bagan 0122-WP-BG04 Deep Sea

Inspired by a trip to Myanmar and a life-changing visit to Thatbyinnyu Temple, our Bagan wallcovering is an artful account of hot-air balloons floating over the ancient city. From the top of the temple, watching the sun melt into a purple haze on the horizon, the balloons appear static—and the mind finds peace. Originally hand-painted in shellac inks, Bagan is a Vale signature illustration printed on multidimensional paper: a non-woven backing paper with a pearlescent finish that's printed in Italy, a mid-layer of tiny threads for texture, and a vinyl finish for washability.
