## Folley 0122-WP-FOWI03 Willow

Bringing the outdoors in is the impetus behind Folley, our new textured wallcovering and counterpart to Avem. There's no mistaking the sense of enchantment conveyed by the art—an original painting that has been translated as a digital print. Dancing atop a basket weave of paper and hemp that is handwoven in Austria and made exclusively for The Vale, the happy-go-lucky birds and floating leaves find dimension and depth. Available in three soft colours, Folley is an animated grasscloth that is luxe in appearance and whimsical at heart.
