Han Paper 0124-WP-HATE-02 Terracotta

Han takes its inspiration from the captivating stone carvings of the Han Dynasty in China. The design beautifully captures the essence of this ancient era, showcasing intricate motifs and symbols that were prevalent during the time. The design mimics rubbing over a stone relief of a march to prayer, with mythical creatures, graceful phoenixes, and elegant lotus blossoms adorn the surface, echoing the rich cultural heritage of the Han Dynasty.

Delicately woven linen strings set upon a non-woven ground form an opulent substrate, giving the paper a tactile richness. Available in the profound depths of "Obsidian" and the classic warmth of "Terracotta", each roll offers a luxurious backdrop that whispers tales of bygone eras while suiting the most refined modern interiors.
